**Medical Research Building – Macarthur (SSD-17491477)**  
**Signage, Condition D23A**

Dear Ms Cole

I refer to your letter dated 24 April 2025 with the Signage design detail package submitted for the approval of the Planning Secretary under condition D23A of SSD-17491477. I also acknowledge and thank you for your response to the Department's request for additional information.

The Department has carefully reviewed the Signage design detail package including your response to the comments raised by the Department.

I note the Signage design detail:

- was reviewed by the Applicant, and no issues were raised to the Department;
- includes the building identification signage drawing package showing the design, content, and illumination details for the proposed signage;
- has been updated, where relevant, to reflect recent changes made under MOD-2 approval; and
- has been submitted to the Department prior to the installation and display of any signage within the approved signage zones.

Also, I note that your response confirms that the proposed Signage is within the approved signage zones and that no Signage has yet been installed and displayed.

Accordingly, as nominee of the Planning Secretary I approve the Signage design detail shown in the Signage & Wayfinding Drawing Package (Attachment 1 with this letter), prepared by Citizen, Revision 7 dated April 2025, under condition D23A of SSD-17491477.

I remind you to satisfy all Outdoor Lighting requirements under condition D6 of SSD-17491477 prior to the commencement of operation.

Please note that if there are any inconsistencies between the submitted Signage design detail and the conditions of consent, the conditions will prevail.

Also, please make the approved Signage design detail package including this letter available for public access on the project website as per condition A26.

Should you have any questions, please do not hesitate to contact Jeremy Martin at [jeremy.martin@dpie.nsw.gov.au](mailto:jeremy.martin@dpie.nsw.gov.au).

Yours sincerely
